- Available in packs of 1, 10, 20, and 40
- 30mm x 20mm x 20mm
- 4.5mm hole
- 4.5kg pull
- 500 degree Celsius operating temperature
- Protective epoxy coating

This magnet is popular in engineering and manufacturing industries due to its strength, operating temperature and corrosion resistance properties.

The Alnico magnets North and South poles are on opposite ends which makes it perfect for classroom demonstrations.
